A large, light-colored wooden blank is mounted on a lathe. The wood shows natural grain patterns and some internal staining. A metal tool is positioned to shape the wood, and a significant amount of wood shavings is being removed, visible as a pile of orange-brown chips at the base of the workpiece. The lathe's metal components, including the headstock and tailstock, are visible on the left side of the frame.

JET

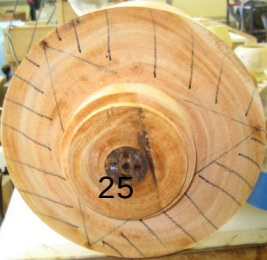

A photograph of a wooden piece being turned on a lathe. The wood is light-colored with prominent grain patterns. The piece is mounted on a lathe and is being shaped into a bulbous form. The number 23 is overlaid on the image. The background shows a workshop setting with a concrete wall and some equipment.

23

A photograph of a workshop scene. In the center, a wooden bowl is placed on a square piece of cardboard. The cardboard has a circle and radial lines drawn on it. A wooden handle with a round head is positioned to the left of the bowl. To the right, there are several other wooden bowls and a white cord. The number 24 is overlaid on the image.

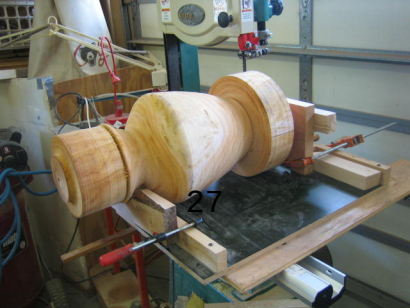

24

A wooden bowl, likely made of cherry, is shown from a top-down perspective. The bowl's interior is decorated with a series of concentric circles and radial lines, creating a spiral pattern. The wood grain is clearly visible. The bowl is resting on a wooden surface. In the background, a workshop environment is visible, including a workbench, a blue tape roll, and various tools. The number 25 is printed in the center of the bowl's base.

25

A wooden bowl, likely made of light-colored wood, is shown from a top-down perspective. The bowl has a wide rim and a central hole. The interior of the bowl is marked with numerous thin, dark, radial lines that extend from the center towards the rim. The bowl is resting on a wooden surface, possibly a workbench. In the background, various workshop items are visible, including a blue container, a white bowl, and some tools. The number 26 is overlaid on the image, centered over the bowl's hole.
