A large, light-colored wooden boat hull is positioned vertically on a workbench. A thin vertical line, likely a bandsaw blade, is cutting through the wood. The hull has a curved, bowl-like shape. The workbench is made of a light-colored material, possibly concrete or stone. In the background, there is a window showing a green outdoor area. The number 12 is overlaid on the image.

A large, roughly-hewn wooden block, possibly a piece of driftwood or a large log, is the central focus. It has a natural, weathered appearance with various shades of brown and tan. On top of the block, a metal flange or cap is attached. The flange is circular with a central threaded hole and several smaller holes around its perimeter. The block is resting on a metal workbench. In the background, there is a wooden cabinet and a workbench with various tools and materials. The number '15' is overlaid on the image.

15

A large, light-colored wooden block, possibly a piece of a ship's hull or a large container, is shown. The block has a flat top surface where a silver-colored metal fitting is mounted. The fitting has a central threaded port and several smaller holes around its base. The wood shows natural grain and some knots. The block is resting on a dark, industrial workbench. In the background, various workshop items like a saw and a container are visible.
